

ALIREZA MIRSHEKARI

Infrastructure Design Engineer | BIM Specialist

L. Based in Antwerp, Belgium E. alireza.mirshekari@gmail.com

PORTFOLIO and
CREDENTIALS

SUMMARY

Project Coordinator with over a year of experience delivering Belgian infrastructure and landscape projects, backed by six years of experience as a Project Architect in design and construction. Combined with an Advanced Master's degree in Urbanism, Landscape and Planning from KU Leuven, I bring a multidisciplinary background in project coordination, technical design, and BIM. Experienced in coordinating multidisciplinary teams and collaborating with engineers, contractors, and public authorities.

Currently expanding my expertise in Infrastructure BIM and digital engineering workflows to support the delivery of efficient, sustainable, and high-quality projects.

CAREER HISTORY

PROJECT COORDINATOR - INFRASTRUCTURE & LANDSCAPE - *Sep 2025 - present*

France Ingenieursbureau - Lier

Coordinate multidisciplinary infrastructure and blue-green urban landscape projects, integrating hydrological systems (riolering, hemelwaterafvoer en geïntegreerd waterbeheer), transport infrastructure (wegenbouw, verhardingsstructuren en weginfrastructuur), and ecological design principles (ecologisch landschapsontwerp en natuurinclusief bouwen) within urban development frameworks. Coordinate project development activities, supporting technical design, planning, and collaboration between engineers, contractors, and stakeholders.

- Facilitate cross-disciplinary alignment between civil engineers, contractors, and public authorities from preliminary design through execution.
- Contribute to roadworks and sewer system projects, including drainage solutions, water management strategies, and infrastructure coordination within urban environments.
- Apply knowledge of Flemish infrastructure practices, including SB 250 specifications, to support project delivery.

PROJECT ARCHITECT - *Feb 2020 - Jun 2023*

AMA | Design + Build Firm - Bushehr

Led architectural design and construction engineering for residential and mixed-use projects, contributing to more than eight projects across different typologies. Implemented BIM-driven workflows to improve coordination, support cost estimation, and enhance project delivery throughout the asset lifecycle.

- Managed project delivery teams (6 of 12 staff) and coordinated design and construction activities
- Implemented BIM workflows for cost estimation, quantity take-offs, and procurement processes.
- Used BIM data to improve planning, identify coordination issues, and enhance project efficiency.
- **Project:**  Portfolio Chapter 2 – 31# A Private Hook

JUNIOR ARCHITECT - *Dec 2016 – May 2019*

Paramadan Consulting Engineers - Bushehr

Started as an Architectural Intern and progressed to Intermediate Architect, contributing to architectural design development, technical documentation, and project coordination across multiple project phases.

- Contributed to design development and technical drawings
- Ensured code compliance and supported team coordination

EDUCATION

M.SC. URBANISM, LANDSCAPE, and PLANNING - Jun 2025
KU Leuven

M.SC. ARCHITECTURAL ENGINEERING - Jun 2015
Shiraz University

B.SC. ARCHITECTURAL TECHNOLOGY ENGINEERING - Jun 2013
IAU University

AUTHORIZATIONS

CONSTRUCTION SUPERVISION LICENSE – Grade II
Issued by the Iran Construction Engineering Organization (IRCEO) - Feb 2017

- Authorized to supervise buildings up to 7 stories or 5,000 m²; chosen for ~8 projects/year
- Key Responsibilities:
 - Design Compliance
 - Health and Safety Support
 - Quality Control and Coordination
 - Progress Monitoring/reporting

ARCHITECTURE DESIGN LICENSE – Grade II
Issued by IRCEO - Nov 2016

- Authorized to design buildings up to 5 stories and/or 2,000 m².

BIM & DIGITAL ENGINEERING SKILLS

STANDARDS:	ISO 19650, BIM information management principles
AUTHORING:	Autodesk Civil 3D, Autodesk Revit
REVIEWING:	Navisworks (federated model review, clash coordination)
AUTOMATION & DATA:	Dynamo (visual scripting), Power BI (data visualization and reporting)
COLLABORATION:	Autodesk Construction Cloud (ACC), Autodesk Forma

SOFTWARES

DESIGN & MODELING:	Revit, AutoCAD, SketchUp, V-Ray
INFRASTRUCTURE & PLANNING:	Autodesk Civil 3D, QGIS, MS Project
GRAPHIC and MEDIA:	Photoshop, Illustrator, InDesign, Premiere Pro
OFFICE and PRODUCTIVITY:	Microsoft Office (Word, Excel, PowerPoint)

ADDITIONAL INFORMATION

LANGUAGES		ADDITIONAL INFORMATION
PERSIAN:	Native	Valid EU Driver’s License – Category B
ENGLISH:	Fluent	Available for long-term collaboration
DUTCH:	B1 (2.2)	Eligible to work in Belgium
